

New Hoopa Community Group Starting Soon!

Welcome to...
Fungal
Understanding (and)
Natural
Gathering
Independence,

A group dedicated solely for those interested in learning more about Mushroom Hunting! Meetings will be taking place in the Kim Yerton Memorial Library on Tuesdays starting at 4:30PM and ending 6PM at the latest, led by Gray Rose Anderson and hosted by Janice Nixon. In the first few weeks we will be getting to know the basics about fungi and for all the meeting/events afterwards, we will be solely focused on how to forage mushrooms safely and identify new species that can be eaten, avoided, or set to your own purposes later! This will not be structured with the same serious tone and material requirements as a college course. This group aims to be informative, relaxed, and as stress-free as the subject matter and environment allows. You do not need to bring any materials, just open minds and ears.

[Running from Nov. 18 (2025) to Feb. 17 (2026)] [Meeting weekly on Tuesdays]

[A Planned excursion and/or presentation will occur at least once a month.]
